### Average scaled scores:

*The scaled score is the raw score the pupil achieves on their test paper "Scaled" to a score of between 80-120 . A score of at least 100 is the expected for a year 6 child. Children who achieve a scaled score of 110+ are identified as a child attaining at a higher score (Greater Depth)*

| Subject                           | Schools Average Scaled Score |
|-----------------------------------|------------------------------|
| Reading                           | 108                          |
| Maths                             | 104                          |
| Grammar, punctuation and spelling | 104                          |

Please note: A dataset with fewer than ten data points is generally considered a small dataset because it lacks sufficient information to draw reliable conclusions or build robust predictive models. This data is based on 9 children.

### Percentage achieving higher level of attainment (Greater Depth)

### Progress scores from KS1 To KS2

KS1-KS2 progress scores are unavailable for 2023/24 and 2024/25 due to the cancellation of KS1 assessments during COVID-19. The Reception Baseline Assessment (RBA) will replace KS1 as the progress baseline, but won't be used until the first RBA cohort completes KS2 in 2028.
