1. STATEMENT OF INTENT

Glazebury CE Primary School seeks to ensure that all pupil who are unable to attend school due to medical needs, and who would not receive suitable education without such provision, continue to have access to as much education as their medical condition allows, to enable them to reach their full potential.

Due to the nature of their health needs, some pupil may be admitted to hospital or placed in alternative forms of education provision. We recognise that, whenever possible, pupils should receive their education within their school and the aim of the provision will be to reintegrate pupils back into school as soon as they are well enough.

We understand that we have a continuing role in a pupil's education whilst they are not attending the school and will work with the LA, healthcare partners and families to ensure that all pupil with medical needs receive the right level of support to enable them to maintain links with their education.

2. LEGAL FRAMEWORK

- This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:
 - Education Act 1996
 - Equality Act 2010
 - Data Protection Act 2018
 - DfE (2013) 'Ensuring a good education for pupil who cannot attend school because of health needs.
 - DfE (2015) 'Supporting pupils at school with medical conditions.
- This policy operates in conjunction with the following school policies:
 - GPS Attendance Policy
 - GPS Safeguarding Policy
 - GPS Data Protection Policy
 - Special Educational Needs and Disabilities (SEND) Policy
 - GPS Equal Opportunities Policy
 - GPS Medical and First Aid Policy

3. DEFINITIONS

Pupil who are unable to attend school as a result of their medical needs may include those with:

- Physical health issues
- Physical injuries
- Diagnosed mental health problems, including anxiety issues
- Emotional difficulties (known personal circumstance)
- Progressive conditions
- Terminal illnesses

- Chronic illnesses

4. LA DUTIES

- The LA must arrange suitable full-time education for pupil of compulsory school age who, because of illness, would not receive suitable education without such provision. The school has a duty to support the LA in doing so.
- The LA should:
 - Provide such education as soon as it is clear that a pupil will be away from school for 15 days or more, due to a known medical condition. They should liaise with the appropriate medical professionals to ensure minimal delay in arranging appropriate provision for the pupil, mindful of their condition and ability to work.
 - Ensure the education pupils receive is of good quality, allows them to take appropriate qualifications, prevents them from falling behind their peers in school, and allows them to reintegrate successfully back into school as soon as possible.
 - Address the needs of individual pupils in arranging provision. Have a named person who is the key point of contact for this pupil's liaison with school and ensure that parents know who this is. Headteacher, SENCo, will have oversight of all pupils who need alternative provision due to health needs.
 - Have a written, publicly accessible policy statement on their arrangements to comply with their legal duty towards pupils with additional health needs.
 - Review the provision offered regularly to ensure that it continues to be appropriate for the pupil and that it is providing suitable education.
 - Give clear policies on the provision of education for pupils and young people under and over compulsory school age.
- The LA should not:
 - Have processes or policies in place which prevent a pupil from getting the right type of provision and a good education.
 - Withhold or reduce the provision, or type of provision, for a pupil because of how much it will cost.
 - Have policies based upon the percentage of time a pupil is able to attend school rather than whether the pupil is receiving a suitable education during that attendance.
 - Have lists of health conditions which dictate whether or not they will arrange education for pupil or inflexible policies which result in pupil going without suitable full-time education (or as much education as their health condition allows them to participate in).

Pupils who are unable to attend mainstream education for health reasons may attend any of the following:

- Hospital school: a special school within a hospital setting where education is provided to give continuity whilst the pupil is receiving treatment.

- Home tuition: many LAs have home tuition services that act as a communication channel between schools and pupils on occasions where pupils are too ill to attend school and are receiving specialist medical treatment.
- Medical PRUs: these are LA establishments that provide education for pupil unable to attend their registered school due to their medical needs.

5. ROLES AND RESPONSIBILITIES

- The Governing Body and SLT are responsible for:
 - Ensuring arrangements for pupils who cannot attend school as a result of their medical needs are in place and are effectively implemented.
 - Ensuring the termly review of the arrangements made for pupils who cannot attend school due to their medical needs.
 - Ensuring the roles and responsibilities of those involved in the arrangements to support the needs of pupils are clear and understood by all.
 - Ensuring robust systems are in place for dealing with health emergencies and critical incidents, for both on-site and off-site activities.
 - Ensuring staff with responsibility for supporting pupils with health needs are appropriately trained.
 - Approving and reviewing this policy on an annual basis.
- The Headteacher is responsible for:
 - Working with the Governing Body to ensure compliance with the relevant statutory duties when supporting pupils with health needs.
 - Working collaboratively with parents and other professionals to develop arrangements to meet the best interests of pupil.
 - Ensuring the arrangements put in place to meet pupils' health needs are fully understood by all those involved and acted upon.
 - Appointing a named member of staff who is responsible for pupils with healthcare needs and liaises with parents, pupils, the LA, key workers, and others involved in the pupil's care.
 - Ensuring the support put in place focusses on and meets the needs of individual pupils.
 - Arranging appropriate training for staff with responsibility for supporting pupils with health needs.
 - Providing teachers who support pupils with health needs with suitable information relating to a pupil's health condition and the possible effect the condition and/or medication taken has on the pupil.
 - Providing reports to the Local Governance Committee on the effectiveness of the arrangements in place to meet the health needs of pupils.
 - Notifying the LA when a pupil is likely to be away from the school for a significant period of time due to their health needs.
- The named person in school is the Headteacher for SENDCo Support & Safeguarding, in conjunction with the School Business Manager and the pastoral team who are responsible for:

- Dealing with pupils who are unable to attend school because of medical needs.
- Monitoring pupil progress and reintegration into school.
- Supplying pupils' education providers / teachers with information about the pupil's capabilities, progress, and outcomes.
- Liaising with the Head teacher, education providers / teachers and parents to determine pupils' programmes of study whilst they are absent from school.
- Keeping pupils informed about school events and encouraging communication with their peers.
- Providing a link between pupils and their parents, and the school / LA.
- Teachers and support staff are responsible for:
 - Understanding confidentiality in respect of pupils' health needs.
 - Designing lessons and activities in a way that allows those with health needs to participate fully and ensuring pupils are not excluded from activities that they wish to take part in without a clear evidence-based reason.
 - Understanding their role in supporting pupils with health needs and ensuring they attend the required training.
 - Ensuring they are aware of the needs of their pupils through the appropriate and lawful sharing of the individual pupil's health needs.
 - Ensuring they are aware of the signs, symptoms, and triggers of common life-threatening medical conditions and know what to do in an emergency.
 - Keeping parents/carers informed of how their pupil's health needs are affecting them whilst in the school.
- Parents and carers are expected to:
 - Ensure the regular and punctual attendance of their pupil at the school where possible.
 - Work in partnership with the school to ensure the best possible outcomes for their pupil.
 - Notify the school of the reason for any of their pupil's absences without delay.
 - Provide the school with sufficient and up-to-date information about their pupil's medical needs and ensure any medication kept at reception for their pupil is in-date.
 - Attend meetings to discuss how support for their pupil should be planned.

6. MANAGING ABSENCES

- Parents are advised to contact the school on the first day their pupil is unable to attend due to illness.
- Absences due to illness will be authorised unless the school has genuine cause for concern about the authenticity of the illness.
- The school will provide support to pupils who are absent from school because of illness for a period of less than 15 school days by liaising with the pupil's parents to arrange schoolwork as soon as the pupil is able to cope with it or part-time education at school. The school will give due consideration to which aspects of the curriculum are prioritised in consultation with the pupil, their family and relevant members of staff. Consideration will

also be given to teacher workload and the appropriateness of work set not in a classroom context.

- For periods of absence that are expected to last for 15 or more school days, either in one absence or over the course of a school year, the School Business Manager will notify the Headteacher and the LA, who will take responsibility for the pupil and their education.
- Where absences are anticipated or known in advance, the school will liaise with the LA to enable education provision to be provided from the start of the pupil's absence.
- For hospital admissions, the appointed named member of staff will liaise with the LA and /or teachers regarding the programme, that should be followed while the pupil is in hospital.
- The LA will set up a personal education plan (PEP) for the pupil which will allow the school, the LA, and the provider of the pupil's education to work together.
- The school (through the school Business Manager) will monitor pupil attendance and mark registers to ensure it is clear whether a pupil is, or should be, receiving education otherwise than at school.
- The school will only remove a pupil who is unable to attend school because of additional health needs from the school roll where:
 - The pupil has been certified by a Medical Officer as unlikely to be in a fit state of health to attend school, before ceasing to be of compulsory school age.
 - Neither the pupil nor their parent has indicated to the school the intention to continue to attend the school, after ceasing to be of compulsory school age.
- A pupil unable to attend school because of their health needs will not be removed from the school register without parental consent and certification from the Medical Officer, even if the LA has become responsible for the pupil's education.

7. SUPPORT FOR PUPILS

- Where a pupil has a complex or long-term health issue, the school will discuss the pupil's needs and how these may be best met with the LA, relevant medical professionals, teachers, parents and, where appropriate, the pupil.
- The LA expects the school to support pupils with health needs to attend full-time education wherever possible, or for the school to make reasonable adjustments to pupils' programmes of study where medical evidence supports the need for those adjustments (evidence must be confirmed with a written medical diagnosis or advice from an NHS medical professional e.g., CAMHS, GP, Paediatric services, medical consultant).
- The school will make reasonable adjustments under pupils' individual healthcare plans (IHCPs), in accordance with the Supporting Pupils with Medical Conditions Policy.
- Pupils admitted to hospital will receive education as determined appropriate by the medical professionals and hospital tuition team at the hospital concerned.
- During a period of absence, the school will work with the provider of the pupil's education to establish and maintain regular communication and effective outcomes.

- Whilst a pupil is away from school, the school will work with the LA to ensure the pupil can successfully remain in touch with their school using the following methods:
 - School newsletters
 - Emails
 - Invitations to school events
 - Cards or letters from peers and staff
- Where appropriate, the school will provide the pupil's education provider with relevant information, curriculum materials and resources.
- To help ensure a pupil with additional health needs is able to attend school following an extended period of absence, the following adaptations will be considered:
 - A personalised or part-time timetable, drafted in consultation with the named staff member.
 - Access to additional support in school.
 - Online access to the curriculum from home.
 - Movement of lessons to more accessible rooms.
 - Places to rest at school when needed.
 - Special exam arrangements to manage anxiety or fatigue.

8. REINTEGRATION

- When a pupil is considered well enough to return to school, the school will develop a tailored reintegration plan in collaboration with the LA.
- The school will work with the LA when reintegration into school is anticipated to plan for consistent provision during and after the period of education outside school.
- As far as possible, the pupil will be able to access the curriculum and materials that they would have used in school.
- If appropriate, the school nurse will be involved in the development of the pupil's reintegration plan and informed of the timeline of the plan by the appointed named member of staff, to ensure they can prepare to offer any appropriate support to the pupil.
- The school will consider whether any reasonable adjustments need to be made to provide suitable access to the school and the curriculum for the pupil.
- For longer absences, the reintegration plan will be developed near to the pupil's likely date of return, to avoid putting unnecessary pressure on an ill pupil or their parents in the early stages of their absence.
- The school is aware that some pupils will need gradual reintegration over a long period of time and will always consult with the pupil, their parents and key staff about concerns, medical issues, timing and the preferred pace of return.
- The reintegration plan could include one or more of the following:
 - The date for planned reintegration, once known.
 - Details of regular meetings to discuss reintegration - Details of the named member of staff who has responsibility for the pupil.

- Clearly stated responsibilities and the rights of all those involved.
- Details of social contacts, including the involvement of peers and mentors during the transition period
- A programme of small goals leading up to reintegration, including a progressively increasing part-time timetable.
- Follow up procedures.
- The school will ensure a welcoming environment is developed and encourage pupils and staff to be positive and proactive during the reintegration period.
- Following reintegration, the school will support the LA in seeking feedback from the pupil regarding the effectiveness of the process.

9. INFORMATION SHARING

- It is essential that all information about pupils with health needs is kept up-to-date.
- To protect confidentiality, all information-sharing techniques, e.g. staff noticeboards, will be agreed with the pupil and their parents in advance of being used.
- All teachers, TA's, supply, and support staff will be provided with access to relevant information, including high-risk health needs and emergency procedures, via the agreed school procedures and/or risk assessment.
- Parents/carers will be made aware of their own rights and responsibilities regarding confidentiality and information sharing. To help achieve this, the school will:
 - Ensure this policy and other relevant policies are easily available and accessible. - Provide the pupil and their parents with a copy of the policy on information sharing.
 - Ask parents to sign a consent form which clearly details the organisations and individuals that their pupil's health information will be shared with, and which methods of sharing will be used.
 - Consider how friendship groups and peers may be able to assist pupils with health needs.
- When a pupil is discharged from hospital or is returning from other education provision, the school will ensure the appropriate information is received to allow for a smooth return to the school. The named member of staff will liaise with the hospital or other tuition service as appropriate.

10. RECORD KEEPING

- In accordance with the Supporting Pupils with Medical Conditions Policy, written records will be kept of all medicines administered to pupils.
- Proper record keeping protects both staff and pupils and provides evidence that agreed procedures have been followed.
- All records will be maintained in line with school policy.

11. PURPOSE OF THE MEDICAL TUITION SERVICE

The Warrington Medical Tuition Service provides temporary educational support for pupils who are unable to attend school for medical reasons. The purpose is to minimise disruption to education for children who are physically ill, injured or have mental health difficulties. The service aims to provide as much curriculum access as possible to enable these pupils to return smoothly to school as soon as their health permits.

To qualify for medical tuition a pupil must satisfy all the following criteria:

- Expected to be absent for at least 15 school days
- The pupil must live within the Warrington Borough Council area
- The pupil must be of compulsory school age (funding is available until the end of Year 11).
- A written recommendation must be obtained from a hospital consultant, senior clinical medical officer or specialist medical team stating that the child is unable to attend school and medical tuition is appropriate.

ELIGIBILITY

Pupils who are expected to be absent from school for more than 15 school days are eligible to receive support once the Medical Tuition Co-ordinator has received a written recommendation from the school and from the appropriate medical authority. This must confirm that the child is unable to attend school and clearly request that medical tuition should be allocated.

Recommendations in relation to physical illness or injury are generally sought from the senior clinical medical officer or hospital consultant who has been treating the child. Where a child is suffering from severe emotional or psychological issues which prevent attendance at school, a recommendation will be sought from the Child and Adolescent Mental Health Service (CAMHS).

REFERRAL

Every school has a member of staff with responsibility for pupils who cannot attend because of medical needs. This member of staff should contact the Medical Tuition Service promptly and submit the appropriate referral forms. Occasionally requests for medical tuition support comes directly from the child's specialist/hospital consultant or the medical team at the hospital where they are being treated.

The stages below illustrate the normal process and procedures which operate:

1. Referral made to the Warrington Medical Tuition Service from the child's school with the supporting recommendation from the appropriate medical profession.
2. The school arranges a meeting with all stake-holders to plan the details of education provision.
3. Tutor is allocated and tuition commences.
4. For long term cases, the medical tuition arrangements will be reviewed formally each school term.
5. Tuition continues until the pupil is able to return to school at which point the tuition is usually withdrawn.

TUITION DELIVERY

Once a tutor has been allocated, the tuition will be delivered in line with the normal school day and during term time. The tutor allocated to the case will make arrangements with the family for the tuition

to take place at a convenient time and place.

The tuition can take place in the home, school, libraries, community hubs and youth centres. If tuition is being delivered in the home, an appropriate adult should also be present for safeguarding reasons.

Usually an average of 10 hours per week of face-to-face or virtual medical tuition is agreed depending on the child's medical needs. The level of support is dependent on the child's individual circumstances.

All members of the Medical Tuition Service Team are qualified teachers with previous experience of working in educational settings.

SUPPORT FOR PREGNANT SCHOOL GIRLS AND YOUNG MUMS

The Warrington Medical Tuition Service also provides support for pregnant school girls and young mothers in the same way as it does for children with medical needs. However, girls are encouraged to remain at school for as long as they can as tuition is not generally provided until around 6 weeks before the pupil's due date. Some pupils continue to study in school beyond this point.

Pregnant school girls are entitled to 10 hours of medical tuition support per week which lasts for a 12 week period in total (usually 6 weeks before the pupil's due date and 6 weeks after the birth). Young mothers are expected to return to school once they are fit to do so, but attendance is tailored to fit individual circumstances and, for most pupils, will involve a gradual reintroduction to school to allow both mother and baby to adjust.

Warrington Medical Tuition Service only provides support for pregnant school girls during their maternity leave for pupils who attend local authority schools.

RETURNING TO SCHOOL

All pupils receive support from the service in the knowledge that their ultimate goal should be to return to school as soon as their health permits. Most pupils are able to return to full time education once their convalescence is over.

Should special arrangements be advised by health professionals, then school and the tutor, in consultation with parents, will ensure they are put in place. However, if the necessary arrangements are complex or the pupil has emotional difficulties and is anxious, the tutor may make arrangements for a supported return to school.

Following consultation with pupil, parent, school and service an individual programme of gradual reintegration will be arranged and tailored to the pupil's needs. Tutors often provide tuition sessions on the school site or in-class support, as a means of helping their pupils gradually adjust to the school environment.

FURTHER INFORMATION AND ADVICE

Further information can be obtained by contacting:

- Warrington Medical Tuition Service
Telephone: 01925 446174
Email: millie.webster@warrington.gov.uk

Address: Medical Tuition Service, Education Services, East Annex, Town Hall, Sankey Street, Warrington, WA1 1UH

Warrington's Local Offer, 'Ask Ollie', is available at www.warrington.gov.uk/localoffer

12. TRAINING

- Staff will be trained in a timely manner to assist with a pupil's return to school.
- Once a pupil's return date has been confirmed, staff will be provided with relevant training before the pupil's anticipated return.
- Healthcare professionals should be involved in identifying and agreeing with the school the type and level of training required.
- Training will be sufficient to ensure staff are confident in their ability to support pupils with additional health needs.
- Parents of pupils with additional health needs may provide specific advice but will not be the sole trainer of staff.

13. EXAMINATIONS AND ASSESSMENTS

- The named member of staff will liaise with the alternative provision provider over planning and examination course requirements where appropriate.
- Relevant assessment information will be provided to the alternative provision provider if required.
- Awarding bodies may make special arrangements for pupils with permanent or long-term disabilities and learning difficulties, or temporary disabilities and illnesses. Applications for such arrangements will be submitted by the school Exams Officer, or LA if more appropriate.
